

General information: Is there a way to free the time and lock the workstation with one click?

Yes, you can free and lock workstation using the 'Free' button on Time toolbar:

- make sure time toolbar is enabled in menu View/Toolbars/Time
- please disable 'Show time information before freeing workstation' on Automation/Operation page in program settings
- please disable 'Confirm getting charge' and 'Confirm freeing computer' on Operation/Confirmations/Main page.

Yes, you can free and lock workstation using Free button on Time toolbar:

- make sure time toolbar is enabled in menu View/Toolbars/Time
- please disable Show time information before freeing workstation on Automation/Operation page in program settings
- please disable Confirm getting charge and Confirm freeing computer on Operation/Confirmations/Main page

Of course lock must be enabled in client settings on Workstation lock page.
