

General information: Can you use happy hour? for example: free navigation from 9:00 to 10:00.

Yes. First please create 'Free' charging rate with price \$0 per minute and mark it as periodic discount. Then edit your main charging rate and add this discount to be valid during specified time on selected weekdays. Also make sure that option Use only one rate for counting the charge is disabled on Money/Charging rates page in options.
