

## Really save £ € \$ money with an exclusive offer for CafeSuite customers only!

We run several successful Internet cafes using the CafeSuite software. In order to be able to sell Internet access tickets continuously, to reduce our staff costs and to remove the need for any staff to handle money, we have developed **self service vending machines**.

Please see the image attached.

These have been operational in our current businesses for several years and are fully compatible with the CafeSuite software. We now have a number of brand new machines that we are looking to sell. They are excellent value and offer a very quick return on investment.

### **SAVE MONEY - Benefits:**

- Sell tickets without staff e.g. full self-service or during staff breaks.
- Keep selling tickets whilst your employees are busy selling other services to customers.
- Keep cash secure in locked cash box.
- Easy for customers to use.
- Fully compatible with CafeSuite software.
- Modified to work with any currency.

Please call Irek with any enquiry on 0044 7872819966 or email [vm@pcmrq.com](mailto:vm@pcmrq.com)

Thanks

**P.S.** We can also supply brand new flat packed bespoke space saving internet cafe desks at fantastic prices - see image.
